NEWSLETTER
NATIVE PLANT REGENERATION
STUDY GROUP

FEBRUARY 1ST 1996

VOLUME 1 NUMBER 3

CONTENTS

* Editorial

* Questionnaire

Editorial

Welcome to the third newsletter of the Native Plant Regeneration Study Group. Well I solved all my administration problems that I had with the last newsletter. In the last newsletter I asked for feedback on some of the articles that appeared in the previous newsletter. Well I didn't get any feedback on trying to find out what sort of Native Plant Regeneration Study Group you want as members.

In this edition I have made it solely for the purpose of being a questionnaire with a stamp self address envelope as the newsletter

NEXT NEWSLETTER

In the next newsletter I would like to put some of your views on items or interest so sent to me your articles (don't be afraid to write).

The postal address is :

P.O BOX 2089
NORMANVILLE
SA 5204

Deadline for the next Newsletter is the 30/3/96 and hopefully you should have it in the post box by Easter.

Bye for Now

Matt Pearson

NEWSLETTER QUESTIONNAIRE

Below are some question on finding out simply what type of newsletter that you want. If you feel that these questions are not the right questions then you may send in a written response detailing the direction that you believe that the native plant regeneration Study Group should go in.
